

Introducing ART Now!

Introducing **ART Now**, a program brought to you by **LTYC LEARN**. Each week, LTYC will continue to deliver a virtual arts lesson in one of our offered contents for you to experience in the comfort of your own home. **ART Now** adjoins perfectly with our sharing season celebration and serves as LTYC's virtual response to ensure that students and artists can participate in arts learning anywhere, and at any time. Through arts tutoring, virtual classes, webinars and more, the Performing and Creative arts can always be right in the palm of your hands. It is one of the many new programs that will be introduced in the coming months as part of LTYC's newest initiative, **LTYC LEARN**.

Arts Integration Math Essentials

As we adapt to the "new normal" LTYC is here to help you find solutions to keep your child motivated to continue learning through arts integration. Common core subjects such as reading and math may be something that needs color, objects or a manipulative to help your child engage. Utilize household items such as pipe cleaners, pasta noodles, pom pom balls, coins or candy! These are all great tools to help extend your child's learning at home in basic addition, subtraction and number recognition. Click below to watch the **ART Now Arts Integration Math Essentials** tutorial.

Awakening The Arts Through Visual Art

Welcome to **Awakening The Arts Through Visual Art**! Each week we will provide you with an in depth unit of lesson plans to stay actively engaged in the arts from home. These exercises are simple to follow and include examples and resources for youth to complete. We hope that you enjoy creating and learning by utilizing our lesson plan guide. Please keep us in the loop and share your awesome work with us on social media @ltycarts!
